## WHO SHOULD ATTEND?

Memory care professionals, CNAs, long-term care staff and caregivers, activity directors, home care providers working with dementia clients or anyone looking to bring structure, independence, and dignity to dementia care

*Montessori isn't just a teaching method – it's a way of seeing people. At its heart, it's all about honoring the individual – their strengths, their choices, their story.*

## 8 PRINCIPLES OF MONTESSORI

- 1 Creating person-focused care
- 2 Fostering dignity and respect
- 3 Promoting socialization
- 4 Creating an environment to encourage independence
- 5 Promoting independence and choice
- 6 Ability and strength-focused care model
- 7 Embracing the holistic development of the whole person
- 8 Encouraging independence in activities of daily living

*In a Montessori-inspired care environment, the focus shifts from what's been lost to what's still possible. It's about nurturing independence and creating meaningful moments of joy.*

## CORPORATE TEAM TRAINING

Investing in your employees by certifying them as CMDCP®s can profoundly impact the quality of care they provide, while giving your clients and families peace of mind that they are receiving the highest level of care possible.

**NOTE:** Attending the 7-hour in-person or virtual Montessori Concept in Dementia Care seminar is a requirement for certification as a Certified Montessori Dementia Care Professional® (CMDCP®). In addition to the course cost, the ICCDP charges an application fee/certification fee. Please see [ICCDP.NET](http://ICCDP.NET) for more information.
